MASE CONTRACTORS

MESSAGE FROM THE CEO

**MICHAEL
EKWEMALOR**
CENGR, CCM, CPC, HACAE

Mase Contractors Limited values integrity; our practices are honest; our conduct is legal and ethical. Although we are inspired by a fair return on our investment, we are always striving for win- win business relationships with customers who share our craving to design and build memorial structures that add value to the communities.

To this end, we are committed to effectively communicate to our clients the benefits of Mase Contractors design-build process, and construction methodology. Our employees are our most important resource in achieving our mission.

At Mase Contractors, we focus on recruiting, training and retaining employees with a special kind of skill set required to maintain a dynamic corporate culture driven by the values of quality, innovation and safety. We ensure this pathway will lead to excellence, to innovation, to growth that will allow both our employees and our clients to realize their aspirations at least and a lot more.

ABOUT US

Mase Contractors is an enterprise with broad expertise and experience in varying areas of engineering consulting and civil engineering construction.

Our areas of expertise among others include sound Project Management, Architectural and Engineering consulting, Highway Consulting, Building Construction, Construction of Drainages, Road Construction, Bridge Construction, design-fi-out and Procurement.

From inception as a consulting construction company, we have upheld as well as maintained high level commitment in the satisfactory delivery of the fore mentioned areas of expertise. Tis by extension, buttresses our professional pasture to always deliver top-notch value on every Our technical team are a breed of experienced professionals with proven skills in diverse areas of engineering consulting and civil engineering construction.

We have undertaken numerous consulting and construction engagements with recorded successes in several states in Nigeria We also wield strategic partnerships with top-notch internal and external companies which further illustrates our passion to achieve optimal output on all transaction types including turn-key, development and traditional contractual agreements. Whilst conducting our activities in line with global best practices, we are firmly mindful of meeting the universal standard quality requirements (Quality Management System).

Our business philosophy is founded on our zeal to consult as well as undertake construction works professionally and execute passionately. This underscores the need to work closely with every client in a bid to helping them to achieve

OUR VISION

To become the world's FOREMOST consulting and construction enterprise

OUR MISSION

To understand the expectations of each client and provide excellent, innovative and cost effective solutions in line with global best practices for the stakeholders.

OUR VALUES

SAFETY

We uphold a positive and proactive safety culture, and lead by example in all aspects of our business. We strive to exceed best practice, and instill this value in personnel and subcontractors.

TRANSPARENCY

We behave in a manner that demonstrates trust, honesty, courage, consistency and responsibility

PROFESSIONALISM

We provide service to our clients and work together as a team in a professional and respectful manner, always advancing toward a level of mastery in our fields of work.

We understand that complex issues have varying results, but mutual respect will be the constant.

QUALITY

Our goal is simply to be the best and to continually improve. This is accomplished through focused teamwork, pride in our work, and ensuring that the requisite quality is achieved.

INTEGRITY

We conduct our business in accordance with the highest standards of professional behavior and ethics.

We are transparent, honest and ethical in all our interactions with personnel, clients, subcontractors and the public.

CLIENT SATISFACTION

We strive to provide exceptional customer service through flexible scheduling, quality products, efficient services, and innovative solutions resulting in value to the customer and stakeholders.

Our
SERVICES

OUR SERVICES

CIVIL INFRASTRUCTURE DEVELOPMENT

Mase contractors provides comprehensive site engineering services from planning through design, permitting and construction. From initial regulatory approvals to final build-out, Mase contractors has developed significant technical knowledge from an extensive list of residential, mixed-use, industrial, educational, and municipal projects.

Our expertise in a diverse range of specialized areas, including site selection and utilization, feasibility studies, environmental impact assessment, civil/ structural engineering services ; roads, bridges, building design and construction.

Our team is well oriented, which gives us the opportunity to work on multiple aspects of very complicated projects.

INFRASTRUCTURE

With more than 20 years building experience in the Construction Industry, our building infrastructural team offers clients comprehensive services that include building construction of residential and commercial buildings, renovations, Pile foundation, alterations and real estate development.

We customize our services to fit each client's budget and unique requirements. The division has longstanding history and established a reputation for providing quality, reliable and sustainable service and delivery, regularly exceeding client expectations.

PROJECT MANAGEMENT SERVICES

Our project management services provide you with comprehensive supervision, inspection and commissioning services for all types of projects - no matter the size or location.

As a leading company in project management we offer you extensive experience in all aspects of construction as a result, we can help you reduce technical risks, prevent construction errors, control budgets and effectively keep your construction project within the planned schedule by proper project planning.

DESIGN-FIT-OUT

We believe that a functional work environment has a huge effect on an office's productivity. This is why our fit-out sector is embellished with seasoned professions with vast years of experience in both interior and exterior fit-out which includes (but not limited to): flooring, partitioning system, suspended ceilings, HVAC, interior designs and space planning, custom-made furniture procurement, LAN and security system, etc.

We make use of Computer-generated imagery (CGI) to translate ideas to our clients even before the inception of our projects. This further consolidates our determination towards excellent service delivery and client relations.

CONSULTING SERVICES

Mase Contractors professionals have a wealth of knowledge and decades of experience in construction, architecture and engineering. We provide expert consulting services such as architectural, civil and structural & engineering design, mechanical and electrical engineering services, soil test evaluation, environmental evaluation reporting. To all shareholders in the construction industry. These projects range in size and complexity which includes some of the country's largest engineering and construction projects.

POWER SERVICE ENGINEERING

We provide electrical engineering services to clients who require our specialized knowledge of design, construction, operations and maintenance of utility class electric systems.

We are professionals in constructing 33Kv and 11Kv load bearing lines and specialists at construction of injection substations, transmission lines and installation of injection wells. Our team has been built with the experience to plan, design, procure and construct substations and utility communication projects.

OUR LICENSES & CERTIFICATIONS

CERTIFICATION

Quality Assurance Policy

Mase contractors provides building construction, civil engineering and power service engineering services throughout Nigeria and one of its key objectives since its establishment is to deliver quality deliverables / service in line with best practices.

In other to achieve this corporate goal, Mase contractors implements and adheres to a quality management system in accordance with ISO 9001:2015. It also includes a commitment to meet the requirements of our clients, as well as legal and regulatory requirements.

The Management and Staffs are responsible for Quality Control through the Quality Management System and seeking improvement by constant review, with suppliers and sub-contractors being encouraged to co-operate.

Our Quality Policy is defined and strongly driven by the following management ethics and actions:

- Develop and maintain a highly skilled professional workforce knowledgeable of, and capable of providing organizational leadership and establishing, maintaining and improving world-class business and quality processes. Well defined roles and responsibilities with strong management involvement and commitment
- Deliver value to the society by providing a stable economic benefit to our employees and local economy
- Attain and surpass our commitments for quality, cost, schedule, safety and security to consistently provide customer value and satisfaction in deliverable or service through world-class leadership, continual improvement, employee development, recognition and social responsibility based upon efficient business processes, well-defined measurements, best practices, and customer surveys

Through the use of these guiding principles, everyone at Mase Contractors is accountable for fully satisfying our customers by meeting or exceeding their needs and expectations in line with best practices. Our goal is exceeding 100% customer satisfaction.

Safety, Security, Health and Environment (SSHE) Policy

Mase contractors provides building construction, civil engineering and power service engineering services throughout Nigeria and our number one priority in every aspect of our business is the Safety and Security of our people, assets and the environment in which we operate.

We are fully committed to achieving an injury free work place and to conduct our business with respect to the local and global environment to achieve objectives of sustainable development.

What we believe:

- Our people are our greatest assets
- All incidents are preventable
- All work should be done safely.

To achieve our commitments and believe, a robust SSHE Management System that outlines the main principles, accountabilities and drive for continuous improvement has been put in place. Key highlights are:

- Proactive SSHE culture through visible leadership and commitment from management and employee involvement.
- Meet or exceed compliance with all applicable SSHE laws and regulations, and international standards in all areas of our operations.
- Ensure that all employees and contractors have been assessed and maintain the required level of job and SSHE competency prior to commencing any work.
- Reinforce to all employees and contractors that they are responsible for, and authorized to intervene in any unsafe act.
- Develop and maintain active plans for emergency and crisis management.
- Prevent incident recurrence through an efficient incident management system.
- Eliminate all incidents and injuries through hazard management and behavioural-based safety
- Comply with the regulations, laws and other requirements of the countries in which we operate and adopt high standards where such laws do not exist.

We will continue to work to achieve and sustain consistent superior level of performance and actively implement initiatives that will help secure a sustainable future. The policy will be reviewed regularly to ensure it continues to meet our business requirements

**OUR
PERSONNEL**

MICHEAL EKWEMALOR CENGR, CCM, CPC, HACAE
CHIEF EXECUTIVE OFFICER

Michael Ekwemalor is an experienced Chief Executive Officer with a demonstrated history of consulting in oil & gas, power and construction industry. He is a strong business development professional, skilled in Project Management, Critical thinking, Build-Design Engineering and strategic planning. As Chief Executive Officer of Mase Contractors, Michael is responsible for leading the

company in providing an exceptional construction experience for our clients, business partners, and employees. He is a visionary who built a business around Integrity, Professionalism and Accountability.

In January 2018, he participated in organizational Management Trainings at the International Builders conference, Design and Construction Week in Orlando, Florida. He worked with Alfara Construction Company during his course work where he received tremendous trainings. He is certified by Royal Institute for Chartered Engineers (RICE, USA) in Civil Engineering, endorsed by Global Engineering standard organization (GESO, Australia) and a member of High Authority Council of Arab Engineers (HACAE, UAE). He is also a certified construction project consultant with wealth of experience. Michael believes that “loving what you do is a key factor in building oneself, community and the nation.

UMAIR NIZAM

GM ENGINEERING AND INFRASTRUCTURE
